LEVERAGE OUR EXPERIENCE

At CREAM ENERGY GROUP, we pride ourselves on the experience of our team. We offer a unique team of skilled trades people to help you manage and deliver your project through to completion.

We then transition into maintenance and management of your solution, and provide 24 hour on-call to guarantee maximum uptime and availability. Let us show you we can.

WHAT WE OFFER

CREAM ENERGY GROUP offers our partners a full service and solution delivery option for an increasingly competitive and demanding industry.

MECHANICAL & COMPRESSION

Our fleet of service trucks, fully licensed millwrights and equipped shop locations are ready for any required service or repair jobs including natural gas / diesel engines and compressors of all sizes.

ELECTRICAL & INSTRUMENTATION

Fully licensed Electricians & Instrumentation Techs, fully equipped shop locations and a fleet of service trucks stand by for your construction and maintenance requirements.

PARTS & RENTALS

Our fully stocked and maintained parts and rentals warehouse locations are here for your direct needs as well as our teams to supply you with the quickest response times on jobs.

DRY ICE BLASTING

Ice Blasting is a quick and eco-friendly way to eliminate surface contamination from equipment, offering no damage or no downtime. It is an excellent solution for your business.

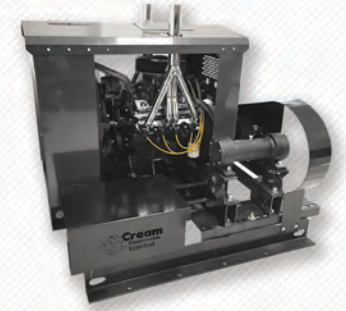

PROVING

Trailer-mounted and fully portable to ensure timely and efficient measurement scheduling for your team.

BRANDS YOU CAN TRUST

CREAM ENERGY GROUP offers the largest selection of brands across all divisions, and we have the experienced sales and service staff to help you get what you are looking for.
